INTRODUCTION

Elemental magic is based on the use of four essential elements: WATER, AIR, FIRE and EARTH. Also, these elements are associated with the four cardinal points: Water corresponds to the West, Air is associated with the East, Fire corresponds to the South, and Earth represents the North.

This association is also found in the signs of the zodiac: There are three fire signs, three water signs, three air signs, and three earth signs.

The purpose of this booklet is to provide you with valuable information on these four essential elements and their benefits. Thus, at first, we will see together the specificities of each element.

Then we will talk about the 4 sacred talismans (a talisman for each element) that form a powerful elemental magic instrument: «THE 4 ELEMENTS ACTIVATOR»!
THE FIRST ELEMENT: WATER

WATER represents our emotions and relationships, anything dealing with your social circle. In general, it is represented by the color blue.

According to elemental magic, it has cleansing powers. For example, a simple «magic» drop of water can purify and revitalize your aura and chakras.

The zodiacal signs associated with this element are: Cancer, Scorpio and Pisces. Then, like the other three elements, it can be seen in two different ways:

Aspects +
INTUITION - PURIFICATION - WELL-BEING - SOOTHING
POSITIVE THINKING

Aspects -
CONFUSION - ANXIETY - AGITATION
MENTAL POLLUTION
THE SECOND ELEMENT: AIR

This element is symbol of emotions, intellect, communication. It also represents freedom, movement, advancement.

In elemental magic, the AIR is represented by white or yellow. This key element is present in many phenomena: breathing or the breath of life, flight, telekinesis, or the forces of cohesion.

We find the association of the AIR with the following zodiac signs: Gemini, Libra and Aquarius. Like FIRE, AIR has two sets of aspects:

**Aspects +**

BALANCE - FREEDOM - SPEED - ENERGY - OPTIMISM

**Aspects -**

MELANCHOLY - PESSIMISM - HESITATION
LACK OF CONFIDENCE
THE THIRD ELEMENT: FIRE

In elemental magic, the FIRE is represented by a flame. It is also symbolized by the red color. Fire represents the energy, the willpower, the inner force, the strength to advance.

Also, in the zodiac it is associated with the following signs: Aries, Leo and Sagittarius.

Like any natural element, the FIRE can be seen in two different ways:

Aspects +
PASSION - PURIFICATION - ENERGY - ENTHUSIASM DETERMINATION

Aspects -
DESTRUCTION - IMPULSIVENESS - PESSIMISM OBSTINATION
THE FOURTH ELEMENT: EARTH

EARTH is represented by the green color. It is a symbol of life and fertility. But it also represents prosperity, luck, and material goods.

Vegetal or mineral, EARTH is an element associated with the five senses. In elemental magic, it is often used for rituals concerning home, work, money, and prosperity.

Capricorn, Taurus and Virgo are the signs associated with this primordial element.

And like the other elements, the EARTH aspects are divided as follows:

Aspects +
CALM - SECURITY - HARMONY - SELF-CONFIDENCE
CONVICTION

Aspects -
OBSTINATION - DISORDER - UNCERTAINTY
LOW SELF-ESTEEM
Now that we have seen the peculiarities of each element, I invite you to discover the 4 sacred talismans that combine into:

THE 4 ELEMENTS ACTIVATOR
THE WATER TALISMAN

The water symbol has cleansing powers. The goal of this water talisman is to purify and revitalize your aura and chakras. This so that you can enjoy a harmonious and serene life. It will also help you get a grip on your emotions and make it easier for you to navigate your relationships.

To that end, here’s what you’ll need to do:

Ingredients:
A piece of paper, a pen, a small glass bottle with a cap, a pipette, a cup of green tea, 4 blue candles, matches and a plastic bag.

Ritual:
Take your piece of paper and draw the water symbol like this:

![Water Symbol]

Take the cup of tea and put it on the table. Using the pipette, pour 4 drops of tea in the glass bottle. Then place the candles on the table forming a square. Put the bottle in the middle of the square.

Light the candles. Then look at your Water symbol and read the following incantation aloud:

«I summon the power of Water!
Cleanse my aura and my chakras
Make joy and happiness flow in my life,
Because your power is great.»
Now, snuff out the candles. Get your bottle and your water symbol. Put them in the bag. Ideally, you can dress up and go outside, in nature. Look for a stream. If you cannot, simply find a sink in your home and let the water run.

Put your bag near the water and say out loud:

«As this water blesses the earth,
So my future will be watered by the beneficial powers of my water talisman,
So that I can enjoy a perfect life.»

Now, let’s move on to the second talisman:
THE AIR TALISMAN

This talisman should bring you balance, harmony and freedom of movement. It will also facilitate your decision-making process. Thus, you will attract the admiration and respect of others.

You will be obeyed and listened to by everyone. To that end, here's what you'll need to do:

The ingredients:

A piece of paper, a pen, some bird feathers (symbol of flight, air), a white ribbon, 4 orange candles, matches and a plastic bag.

The Ritual:

Start by drawing your Air symbol on your piece of paper like this:

```
  △
```

Take the feathers and tie them together using the ribbon. Put the 4 candles on a table, forming a square. Place the attached feathers in the middle of the square.

Light the candles. Be careful not to burn the feathers. Then look at your Air Talisman for 1 minute. And read aloud the following incantation:

```
«I summon the power of AIR!
Free me from any constraint,
Bring me balance and harmony,
Recognition and respect,
For me to be admired by everyone.»
```
After reading this invocation, snuff out the candles. Collect the feathers and your Air symbol and put them in the bag.

Dress up and take a walk in nature. Choose a place with natural elevation (on a hill for example). A place from where you can see the sky, the horizon. If you cannot get out of your home or do not have the time to do so, simply do the rest of the ritual next to an open window.

**Take the bunch of feathers out of your bag and say out loud:**

«*As these feathers traveled beyond the earth,*
*As they knew freedom,*
*So be my life from today!*
*A life made of freedom and tranquility.*»

After reading this incantation, get your bag back. Put it in a dry place in your home, away from the light.

You are now ready for the third talisman:
THE FIRE TALISMAN

This talisman is meant to thoroughly purify your aura. It is also effective to increase your overall energy and vitality. It will also stimulate your optimism and motivation, so that you can succeed in all of your projects. For this, you must activate it magically!

The ingredients:

A piece of paper, a pen, charcoal, a metal container, sage incense, 4 red candles, matches and a paper bag.

The Ritual:

Start by drawing your Fire symbol on your piece of paper like this:

Put the 4 candles on a table, forming a square. Place the container in the middle of the square. Add sage incense and charcoal to the container. Burn everything together.

Now, light the candles. Then, watch your Fire symbol for 1 minute. Then read aloud the following incantation:

«I summon the power of FIRE! Purify me from all impurities, Give me the energy to succeed in all of my projects, I believe in you and in your magical power.»
After reading this incantation, snuff out the candles and collect the ashes from the container. Put the ashes in the paper bag together with your Fire symbol.

Find some place on the ground where you can light up some more incense. Do it outside if you can, but any safe place on the floor of your home will do, as long as you feel peaceful. Trace a square on the ground with a stick. Put your bag in the middle of the square.

Then speak the following incantation:

«Through my FIRE Talisman,
I draw passion to me!
I draw enthusiasm and optimism to me.»

After reading this incantation, put everything next to the other bags. You are ready for the 4th talisman:
THE EARTH TALISMAN

This fourth talisman should fill your life with luck and prosperity. It should also increase your self-confidence. Thus, you will be able to obtain better material advantages.

For that, here’s what you’ll need to do:

Ingredients:
A piece of paper, a pen, a stone (part of the earth), coarse salt, a coin, 4 green candles, matches and a plastic bag.

The Ritual:
Start by drawing your Earth Talisman (= symbol of Earth) on a paper like this:

Take the salt and draw a circle on the table. Place the candles in the middle of the circle forming a square. Put the stone and the coin in the middle of the square.

Light the candles. Then look at your Earth Talisman and read the following incantation aloud:

«I summon the power of Earth! Bring me luck and success, Spread in my life wealth and prosperity, Because your power is great.»
Now, snuff out the candles. Pick up your stone and the coin. Put them in the bag.

Dress up and go outside, in nature. Look for a tree. Put your bag at the foot of the tree. If you cannot move from your home or do not have a convenient place nearby, any piece of wooden furniture will do.

Put both hands on the tree trunk (or on the wooden piece of furniture) and say out loud:

«As this tree feeds from the essence of the Earth, So my life will be nourished by the abundance and riches of the Universe.»

After reading this incantation, put the bag next to the other 3 bags.
Now that you have all the talismans enabled, you can create your **4 ELEMENTS ACTIVATOR**! For that, here’s what you’ll need to do:
CREATING YOUR 4 ELEMENTS ACTIVATOR

The 4 Elements Activator is a powerful elemental magic tool. It should help you quickly get the life you want. Because it will work as a “balancer of situations”. So, you will soon find that the scales will tip in your favor.

To that end, you have to create this powerful object by yourself. Thus, it will be perfectly harmonized to your personal energy vibrations. And nothing and no one could break that sacred bond.

NOW HERE IS WHAT YOU WILL NEED TO DO:

First of all, get a metal box (the metal is both a magnet and a channel for energy). Put your 4 talismans that you just activated in the box. **Take a blue piece of paper and a pen and write the following incantation:**

«By the power of the 4 Elements
I am now the master of my life!
I get everything I want, Because the power of my Activator is without equal.»

After writing this incantation down, fold the paper in half twice and put it in the box. Then place 4 white candles on the table forming a square. Put the box in the middle of the square and light the candles. **Look carefully at the candle flames and read aloud:**

«From now on,
I have my future in my hands
My magnet of luck and good life
My 4 elements Activator will bring me:
Prosperity and money,
Recognition and love,
Success and Victory,
So that I can live in perfect harmony.»
Now snuff out the candles. Collect your “4 Elements Activator” and place it in your room, preferably on your bedside table or under your bed.

And every night, put both hands on the box and speak the following incantation:

«Oh my 4 Elements Activator,
Refill me with your beneficial energies!
Make me a radiant person,
Bring me good fortune and wealth,
Because I believe in you and in your power.»

That’s all you have to do to get all the mystical power of your “4 ELEMENTS ACTIVATOR”. Now you have in your hands the best elemental magically you could get. An ally who should open the doors of a kingdom of ease and perpetual comfort for you!
